Andalusia, AL 36421

RE: Waste Certification
Hydrocarbon Contaminated Soil
Approved for initial 10 CY of waste soils. Additional requires Dept. notification and approval.

Dear Ms. Evans:

The Alabama Department of Environmental Management has reviewed your waste certification received on 6/21/2016 and has assigned a Certification Number for this waste as shown below.

Waste Profile #: 160816
Certification #: SW-063018-0066
Expiration Date of Certification: 6/30/2018

Slidell Oil Company, Inc. (Young's Country
Store) 316 6th Avenue
Cuba, AL 36000

In your certification you requested one or more landfills be approved to receive your waste. Based on our review of the waste and the landfills requested, the waste is approved for disposal in the following landfills:

Arrowhead Landfill
Coffee County Sanitary Landfill

53-03
16-10

You should provide this approval letter to the landfill(s) listed above and contact the landfill to determine any special handling requirements for this waste prior to delivery to the landfill. According to ADEM regulations, the landfill may not receive this waste unless it has received a waste certification approval. For waste generated on a routine basis (not a one-time occurrence), another written certification for this waste stream should be submitted to ADEM prior to the expiration date listed above or at any time the process producing the waste changes. Each submittal should include a completed Solid Waste Profile Sheet, any supporting documentation including current analytical, and the appropriate fee. Current analytical consists of analysis performed within the past six months.

If at any time before the expiration date of this certification, new analysis of the waste is performed, the new results will supersede any prior analysis from the time the samples are taken. If the new analysis indicates the waste is still non-hazardous, the waste may continue to be disposed of at the landfill listed above until the expiration date of this certification. If the new analysis indicates the waste is hazardous, this certification is revoked. Each time new analysis is performed on the waste, copies of the analytical results should be provided to ADEM and the landfill until this certification expires. The generator should not dispose of the waste prior to the receipt and review of the sampling results. Furthermore, this approval letter does not exempt Slidell Oil Company, Inc. (Youngs County Store) from complying with all applicable requirements of the ADEM Administrative Code. If you have any questions concerning this approval or the approval process, please contact Mr. Michael J. Cruise at 334-271-7938.

Sincerely,

A handwritten signature in black ink that reads "Ronald T. Shell".
